Dénes Riedly
Business Informatics

Business Informatics with one year of work experience in **Business Analyst** role, and two years in **Software Testing**. I have experience in both working in teams and solving task individually. I tend to use critical thinking methodologies and come up with out-of-the-box solutions for problems. During my University studies and internships, I have learned how to organize my duties and meet deadlines.

Last but not least about my soft-skills, according to my friends, I have a good sense of humor. I have experience with multiple coding languages and frameworks like **C#, HTML, CSS, Angular, Bootstrap, JavaScript, Node.JS, PHP, SQL, PL/SQL** and **Java**. I used the following softwares: Power BI, **Visual Studio, Netbeans, SQL developer, MS SQL,TOAD, WebStorm, Adobe Photoshop, Adobe Premier, Android Studio, Microsoft Dynamics, MS Word, Excel** and **Power Point**.

I am a native Hungarian speaker, and I also speak English, Spanish and Slovak languages.

Experience

2020-04 - Present
MI Analyst
Accelerant Holdings Ltd.
I'm a **Management Information Analyst** at Accelerant Holdings.
As an underwriting group in Insurance sector, one of the most important task is create several automatized reports and bordereaux in Power BI from the data warehouse. As a member of the team, I take part in that work.

2019-04 - 2020-04
Business Analyst
Openreach Ltd. (TCS UK)
I work as an **Assistant System Engineer** at Tata Consultancy Services. I perform **Business Analyst** duties on customer side for Openreach, . therefore I am familiar with **SQL**, **Excel** and **Visual Basic** Programming. As a member of SOGEA trials team, I am responsible for analysing key issues before the launch of this new product in telecommunication sector.

2016-10 - 2019-03
Software tester
Prudent Counsel Ltd.
At the beginning of my internship I performed Manual Tester duties. Later I was developing the test automation system of the company, using **C#, Java** and **PL/SQL.**
I have experience in Agile (Scrum) development and working in a team.

2018-02 - 2018-06
Web developer traineeship
Watson s.r.o.
- Collaborate with expert Web developers
- **Individual work** in **HTML, CSS, SASS** and **Bootstrap**
- **Teamwork** in FullStack projects

2015-02 - 2015-08
Waiter
Waverley Castle Hotel

Education

2019-02 - 2015-08
Corvinus University of Budapest, Bachelor's degree in Business Informatics
I studied economy with information technology. We are the bridge between the customer and the management of the company. In our profession we are able to react to the changing market.

2014 - 2015
Budapest University of Technology and Economics
Computer Science Engineer

2009-09 2014-06
